

NewCo. Quick Start Guide

1. Introduction

What is NewCo.?

NewCo. is a free, open-source note-taking app. It supports Markdown, encryption, and cross-device syncing.

Who is this guide for?

This guide is for new users who want to get started quickly with NewCo...

2. Installation

Download NewCo.:

Go to [NewCo.'s official website](#) and click the "Download the App".

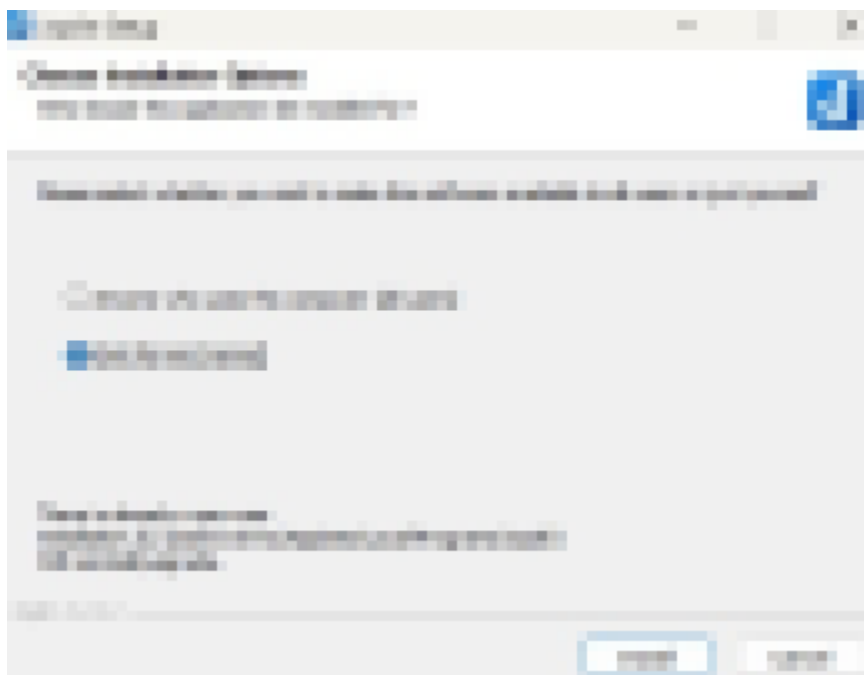

NewCo. has versions for all popular OS's:

- Windows
- macOS
- Linux
- Android/iOS

Install NewCo.:

1. Navigate to the folder containing the file and double-click it.
2. Follow the on-screen instructions.

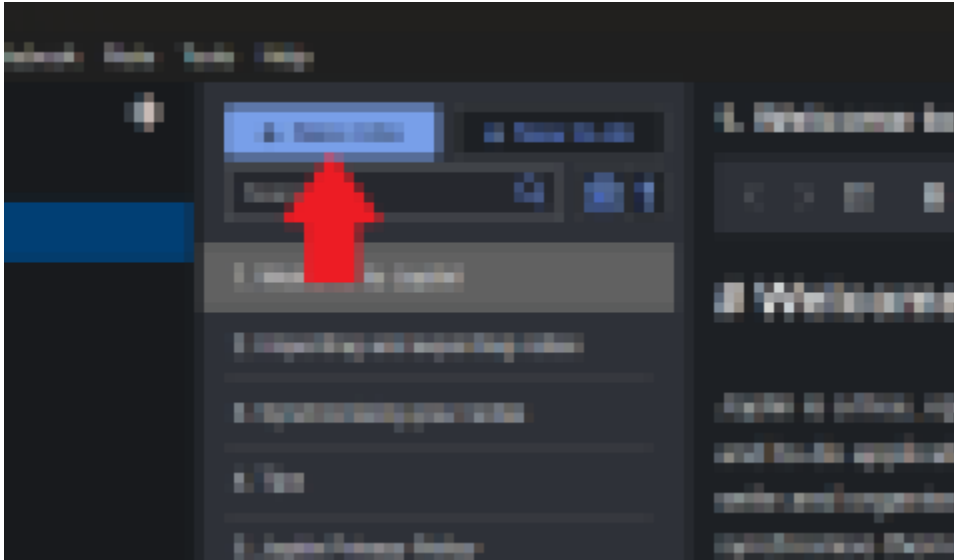

3. Launch the application after the installation is completed.

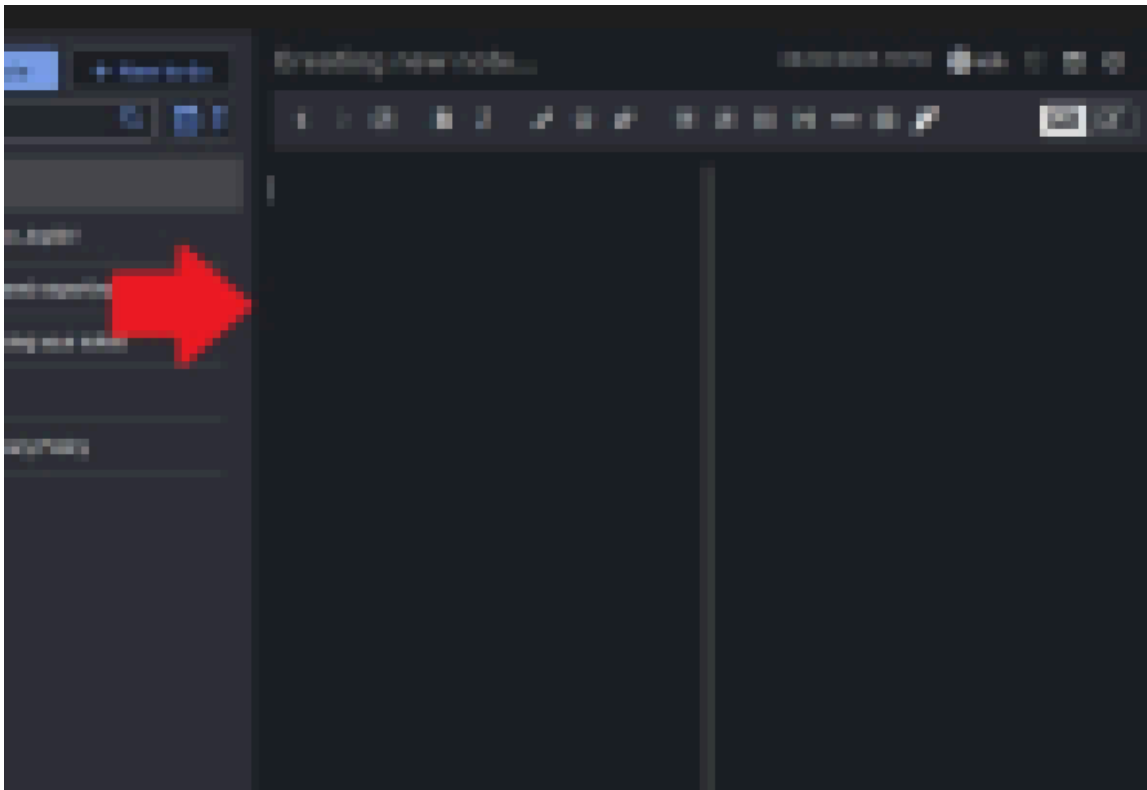

3. Creating Your First Note

Open NewCo. and create a new note:

1. Click **New Note** in the top bar.

2. Type your note in the editor.

Using Markdown for Formatting:

Example:

- ****Bold Text**** → **Bold Text**
- ***Italic Text*** → *Italic Text*
- **# Heading 1** → **Heading 1**

4. Organizing Notes with Notebooks & Tags

Creating a Notebook:

Click **New Notebook** to create a collection of notes.

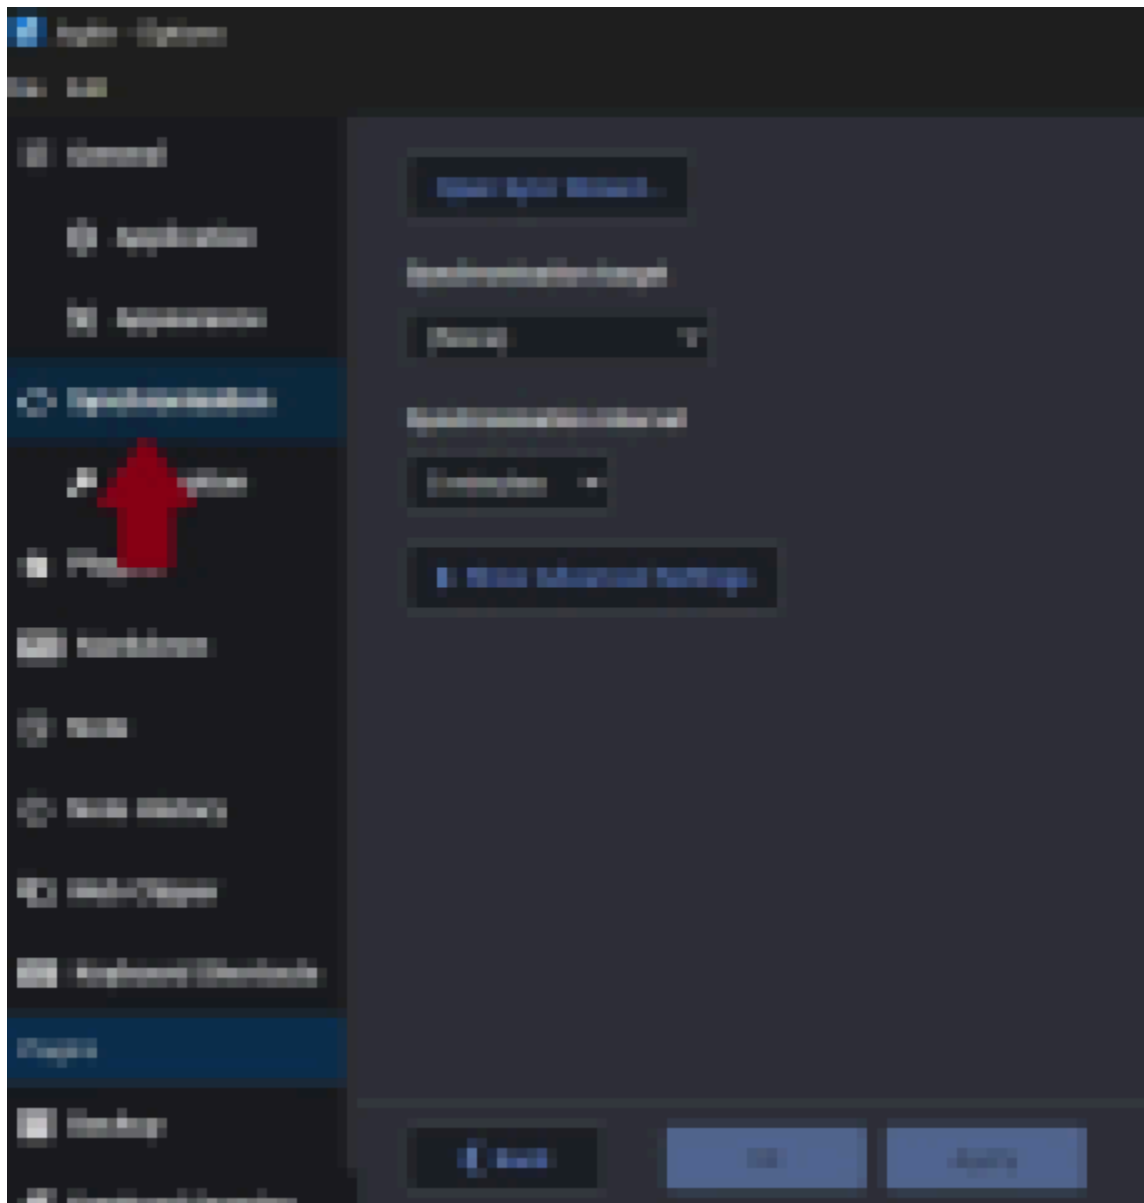

Using Tags:

Add tags to your notes to organize them efficiently.

5. Syncing Notes Across Devices

Set up cloud sync (Optional but recommended):

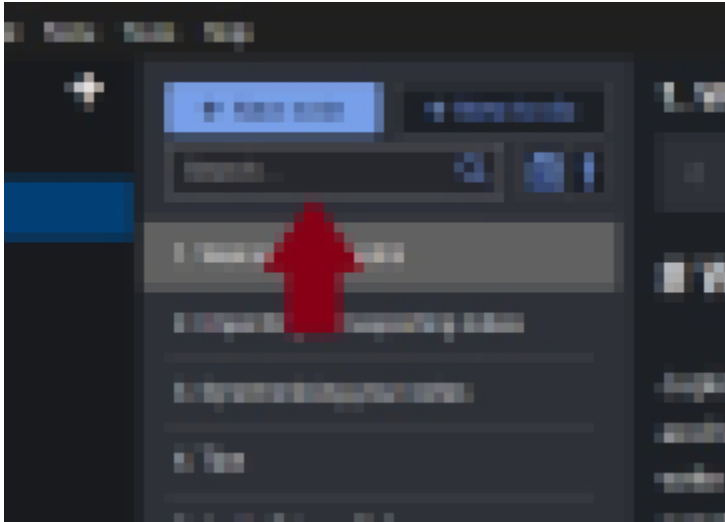

1. Go to **Tools > Options > Synchronization**

2. Choose a service (Dropbox, OneDrive, Nextcloud, etc.)
3. Enter your credentials and sync your notes.

6. Searching for Notes

- Use the **search bar** at the top to find notes quickly.

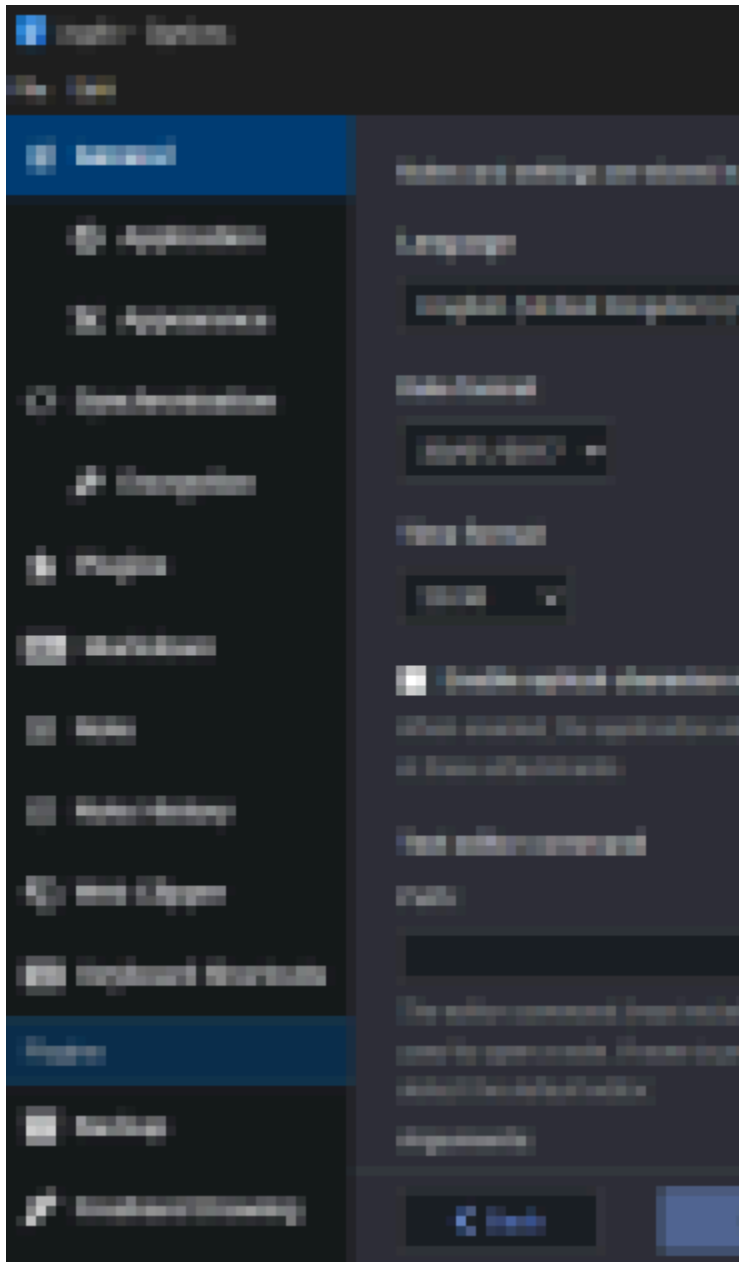

- Use filters like `tag:work` to refine searches.

7. Customizing NewCo. (Themes & Plugins)

Go to **Tools > Options** to:

- Change themes (Dark Mode available!)

- Install plugins for additional features.

8. Getting Help

Visit the NewCo. Forum for help.

9. Next Steps

Explore advanced features like encryption and templates.
